Metos Viking & Viking Combi Kettles

Metos Viking kettles are safe choices for professional food production

Viking and the Viking Combi kettles are reliable and safe choices for every professional kitchen's food production. A set of versatile functions make kitchen work even easier. A lot of labor time can be saved when there is one appliance for cooking, mixing and optional chilling. The integrated bottom mixer makes the Viking Combi a welcome, flexible tool.

Smooth motorized tilting makes decanting easy and a fully insulated kettle body saves your kitchen energy while improving workplace safety. Distance to the floor is over 600 mm when kettle is fully tilted. High tilting kettle is fast and easy to empty. Most trolleys fit under kettle's pouring lip.

The Viking Combi features an integrated mixer for versatile food production of both hot and cold food. When equipped with optional cooling, the Viking Combi makes a complete process from start to finish.

Manual cooling with tap water C1*

Handshower hose is connected to kettle jacket's "water inlet" connection. Also "water inlet" and "water outlet" valves must be set into right position before and after cooling.

Automatic cooling with tap water C2*

Automatic steam jacket drainage after cooling. Cooling media is tap water.

*Kettle does not make water colder for cooling purposes.

Cook large quantities effectively – up to 400 liters at a time.

Strong, maintenance-free, auto-reverse mixer for all mixing, also whipping. Also available as a heavy-duty version for extra heavy loads.

Food water inlet directly positioned for flow into the kettle.

Distance to floor is over 600 mm when kettle is fully tilted.

Reel-in handshower or other handshower models are optional.

All kettle sizes suitable for free standing installations.

Metos Viking & Viking Combi Kettles

Viking

- Construction stainless steel, inner surface acid proof stainless steel
- Elevated control pillar with selected features
- Temperature control, max. +120 °C
- Max. working pressure in steam jacket 1,0 bar
- Electric tilting 40-150 L kettles, hydraulic tilting 200-400 L kettles
- Tilting height 600 mm

Standard equipment

- Separate lid 40-100L kettles, hinged lid 150-400 L kettles
- Measuring stick

Hook for accessories on left and right pillar (single kettle)
