## ZUB MINI

To help our little  
ones grow

**TECHNICAL FEATURES**  
**ZUB MINI**

| Dimensions         | Rated voltage        | Total connected load | Fuse | Order no.   |
|--------------------|----------------------|----------------------|------|-------------|
| 859 x 679 x 800 mm | 1 N AC 230 V, 50 Hz. | 940 watts            | 16 A | 88 16 02 12 |

**FUNCTION**

The delivery trolley in a special size for nurseries and school catering and for anywhere that our little ones also need to receive the optimum care. For the in-house transport and distribution of food. With hygienic stainless steel panelling that can be customised with an attractive foil coating. The worktop is turned down on all sides with two seamlessly welded heated wells. They can be heated wet as well as dry with GN containers 1/1 and are easy to clean due to the integrated drainage cock. Significant energy savings can be achieved with the dry heating and also due to the panelling and insulation. All switch elements are impact-protected. The ZUB MINI can be used flexibly in rooms due to the 2.5 m spiral cable. It is controlled by an ON/OFF rocket switch and a stepless thermostat controller. Particularly robust due to the 4 corner bumpers and stainless steel castors. Perfect for mobile applications due to the 2 swivel castors, with a wheel diameter of 125 mm.
