OUR RESPONSE TO COVID-19

Issue 28

HELPING YOU WITH FOOD TRANSPORT SOLUTIONS, SO YOU CAN HELP OTHERS

BGL Rieber - protecting our most valuable resource – people

At this unprecedented time, like none we've seen before, it's important to pull together. That's why BGL would like to reassure customers that as much as possible, it's business as usual.

We know our Thermoports are used to transport food at correct temperatures for the emergency services, meals on wheels, hospitals, care homes, armed forces and care operators alike. **Getting deliveries to you will be our priority, to ensure you can care for those in need.**

As a company we are doing everything within our control to minimise unnecessary risk and exposure for our staff and customers alike.

"The Rieber factory operates and functions as usual in terms of supplying Thermoport boxes, spare parts and our range of GN containers and lids," says BGL Rieber MD Gareth Newton.

"However, we do not know what further restrictions the government will place upon the workplace, so like everyone else, we await developments.

"We're experienced in food transport solutions, and will do everything in our power to get things moving so you can support everyone who is in need of assistance."

Talk to us now, call 01225 704470 or email sales@bglrieber.co.uk, we are here and ready to help you. It's better to be over cautious than underprepared.

We're working together to get through this international pandemic and time of national crisis.

"Thermoport boxes, containers and lids can be delivered within days"
